***Allowable Subject Matter***

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a method of doubling the number of distinct multi-touch gestures that can be mapped onto a hand. This is achieved by classifying a multi-touch as a chord, distinguishing the multi-touch chord as either of a neutral, relaxed hand or of a spread hand, assigning sets of gesture functions or commands, respectively, and generating a function or command signal in response to subsequent finger motions.

Independent claim 1 identifies the uniquely distinct features "testing whether this geometric arrangement matches that of a neutral, relaxed hand, or of a hand whose fingers have been spread deliberately; if the finger arrangement tests neutral, selecting a neutral set of gesture functions or commands for the classified chord; if the finger arrangement tests spread, selecting a spread set of gesture functions or commands for the classified chord that are intuitively related to the neutral set."

Shieh (US 5,790,104), teaches detection of hand on a screen, creating a virtual pointing device based on the detection, and further invoking a function on object positioned under the pointer by action of specific finger. Shieh does not teach the determination of a neutral hand or a spread hand and respective associated gesture functions or commands.

Ure (US 6,107,997) teaches provision of both mouse operation and keyboard operation by tracking the pattern of fingers touching a touch pad. Specifically, a keyboard operation is started when a chord of two-finger combination is detected. Ure also does not teach the determination of a neutral hand or a spread hand and respective associated gesture functions or commands.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Comment***

The examiner has confirmed that correspondence address, customer number and docket number have been updated by a legal instrument examiner. Only with the submission of a Change of Correspondence Address form (as submitted on 8/9/2005) would the information be updated by a legal instrument examiner.
